***ELECTION***

This application contains claims directed to the following patentably distinct species of the claimed invention:

1) Various classes of pulmonary hypertension reducing agents, such as calcium-channel blocker, vasodilator, ACEI, etc. The relevant claims include claims 1, 18-22, 27, 41-44.

2) Various added steps recited in claims 33-37.

3) Formulation in the form of a solution or suspension. Relevant claims include claims 6-15, 45-48.

4) Formulations comprising a preservative or being preservative-free. Relevant claims include claims 16-17 and 49-50.

Applicant is required under 35 U.S.C. 121 to elect a **single** disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable (Please elect one species from each group).

Applicant is advised that a reply to this requirement **must** include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

A telephone call was made to Mr. Thomas Parker on 08/24/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete **must** include **an election** of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mina Haghighatian whose telephone number is 571-272-0615. The examiner can normally be reached on core office hours.

Art Unit: 1616

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gary L. Kunz can be reached on 571-272-0887. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
